Colonels Korusyev (fnu) and Elich (fnu), lajor Romantsov (fnu), and Captain Kauerov (sie), were identified with a headquarters which arrived with the troops during the night of 28 April. The informant also stated that the installation quartered 4 motor transport companies of about 400 troops; 1 SP artillery company with 6 SP guns; 1 armored reconnaissance unit with 12 armored scout cars; and 3 tank companies with 12 tanks each. The three tank companies were the units which arrived during the night of 28 April.		
3.	On and after 7 May, groups of from 6 to 12 tanks daily left the installation in three directions to participate in field exercises in conjunction with armored reconnaissance cars, 20-mm AA guns, and infantry troops. The tank unit which left the installation on 13 May consisted of 12 T-34/85 tanks consecutively numbered from 221 to 231. Then the unit arrived at the training area, 10 twin-engine aircraft approached from the direction of Luebschuetz at an altitude of about 500 meters and dropped 10 to 15 parachutists each. A shepherd confirmed that these exercises were frequently held in that area.
